

## Join our NHS Future Fit workshops: August and September 2014

**Over the coming months, people in Shropshire, Telford & Wrekin, and mid-Wales will have an opportunity to have their say about the way healthcare is delivered for the next 20 years.**

We want local people to help shape the future of those services. You can share your views and tell us where you think healthcare services should be located by attending a NHS Future Fit interactive workshop in August or September.

These workshops are part of an eight-month conversation with local people, to help deliver the necessary changes to give patients the healthcare they need for the future.

If you would like us to talk to your group or organisation, please get in touch. We are happy to visit you.

The August workshops will include:

- information about NHS Future Fit
- discussion on how NHS services need to work for the future
- a say on where services could be located and the reasons why.
