working for patients

Notice of Patients Group vacancy

The Bishop's Castle Patients Group is looking for a new member for its Steering Group to fill a recent vacancy.

The new member will be joining the Group at an interesting and challenging time. Major issues facing health care in the Bishop's Castle area are the Future Fit proposals for the reorganisation of acute hospital care and the proposals under the recently launched Shropshire Care Closer to Home Programme. These issues are of particular concern given the implications for public transport and the existence of the Community Hospital in Bishop's Castle. The Patients Group seeks to play an active part in the various consultation processes.

Applications should be made by email to jarriens@globalnet.co.uk or raygene@btinternet.com or in writing to 17 Castle Street, Bishop's Castle SY9 5BU.

Closing date for applications: 30 June 2019

Jan Arriens

Chair, Bishop's Castle Patients Group,
